

Looking for Glass Rectifiers?

Critical Shortage Report

Hi Rel Glass Rectifiers

1N3611 thru 1N3614

1N4245 thru 1N4249

1N4942 thru 1N4948

1N5186 thru 1N5190

1N5415 thru 1N5420

1N5550 thru 1N5554

1N5614 thru 1N5623

1N5802 thru 1N5811

UES1001 thru UES1003

UES1101 thru UES1106

UES1301 thru UES1306

Look no further.

Central's High Quality Discrete Rectifiers

Central Semiconductor manufactures High Quality Ultrafast, Fast, and General Purpose Rectifiers in voidless glass bead packages.

Voidless Glass Bead Packages

Devices shown actual size

The advantages of selecting Central's devices are clear:

Availability – Stock to 8 weeks.

Delivery – Central's on-time delivery record is >99.0%.

Performance – Central's devices meet or exceed industry standard device specifications.

Design – Central utilizes a High Temperature (660°C) Metallurgical Bond, and a solid glass package for maximum protection and passivation of the silicon chip.

Cost – Reasonably priced.

Support – Central's experienced sales support team provides a single point of contact, from device selection to purchasing.

Samples – Free samples are available.

To order samples visit:
