**DESCRIPTION:**

The CENTRAL SEMICONDUCTOR CTLT3410-M621 and CTLT7410-M621 are Low  $V_{CE(SAT)}$  transistors in a very small leadless 1x2mm surface mount package, designed for applications where small size, operational efficiency, and low energy consumption are prime requirements. Due to the leadless package design, these devices are capable of dissipating up to 3 times the power of similar devices in comparable sized surface mount packages.

# Product End of Life Notification

<b>PDN ID:</b>	PDN01096
<b>Notification Date:</b>	8/07/18
<b>Last Buy Date:</b>	2/07/19
<b>Last Shipment Date</b>	8/07/19

Summary: All devices in the TLM621 and TLM621H packages are discontinued and now classified as End of Life (EOL).

Although Central Semiconductor Corp. makes every effort to continue to produce devices that have been proclaimed EOL (End of Life) by other manufacturers, it is an accepted industry practice to discontinue certain devices when customer demand falls below a minimum level of sustainability. Accordingly, the following product(s) have been transitioned to End of Life status as part of Central's ongoing Product Management Process. Any replacement products are noted below. The effective date for placing last purchase orders will be six (6) months from the date of this notice and twelve (12) months from the notice date for final shipments, and minimum order quantities may apply. The last purchase and shipment dates may be extended if inventory is available.
