

Product / Process Change Notice

Parts Affected:

PNP Saturated Switching Transistors manufactured in the TO-92 epoxy molded through-hole case.

Extent of Change:

Part # PN4209 in the TO-92 epoxy molded case has been developed as Central's primary device for low to medium current, PNP, high speed saturated switching applications as a replacement for "Part Numbers Affected" listed below.

Reason for Change:

To consolidate the small signal PNP saturated switching product portfolio due to low sales volume.

Effect of Change:

Minor electrical specification changes to the industry standard parts listed below.

Effective Date of Change:

Q2 2012; existing inventory of parts listed below will be shipped until depleted.

Sample Availability:

Please contact Salesperson or Manufacturer's Representative.
