

Product / Process Change Notice

Parts Affected:

CPR5U-040 glass passivated ultra fast recovery rectifier.

Reason for Change:

To enhance product manufacturability.

Extent of Change:

The equipment used to apply glass slurry prior to high temperature cure was upgraded to improve repeatability and consistency. In addition, enhancements to the wafer process were implemented, seeking to optimize forward voltage and reverse characteristics (switching and leakage).

Effect of Change:

This change does not affect the form, fit, or function of the device.

Effective Date of Change:

May 15, 2020

Sample Availability:

Please contact your salesperson or manufacturer's representative.
