Product / Process Change Notice

Parts Affected:

All products manufactured in the SMC package.

Extent of Change:

The internal lead frame is being changed to optimize assembly flow from a semi-automatic to a fully automatic assembly process.

Reason for Change:

This change will enhance manufacturability and minimize potential supply disruption; electrical performance and overall mechanical outline of the package are unchanged.

Effect of Change:

This change does not affect the form, fit, or function of any device.
